The Directors of Bunnings Property Management Limited (**BPML**), as responsible entity of Bunnings Warehouse Property Trust (**BWP** or the **Trust**), today announce an equity raising of approximately \$120 million, to strengthen BWP's balance sheet and enhance its defensive characteristics and financial flexibility.

The equity raising is a non-renounceable 1 for 3.87 entitlement offer, conducted at a fixed issue price of \$1.50 per new unit (**Entitlement Offer**). The Entitlement Offer comprises an institutional entitlement offer to raise approximately \$55 million and a retail entitlement offer to raise approximately \$65 million.

For the institutional entitlement offer, new units equivalent to the number of entitlements not taken up by eligible institutional unitholders and those which would otherwise have been offered to ineligible institutional unitholders, will be offered to eligible institutional unitholders and certain other institutional and sophisticated investors through a volume bookbuild process at the issue price.

The Entitlement Offer is fully underwritten by J.P. Morgan Australia Limited. Proceeds will be used to repay debt, terminate excess interest rate derivatives and enhance BWP's financial flexibility to take advantage of future opportunities.

Benefits of the Entitlement Offer

Mr Grant Gernhoefer, General Manager of BPML, said: "Today's equity raising forms an important part of BWP's capital management strategy. It provides short term financial flexibility to manage debt funding and better positions the Trust over the medium term to pursue its prudent growth strategy of selective, earnings accretive acquisitions, and value-adding developments. Following the equity raising, BWP will be one of the lowest geared property trusts in the S&P/ASX 200 A-REIT index, with pro-forma gearing¹ reduced to 23.8 per cent."

BWP has \$380 million in debt facilities, of which approximately \$342 million is currently drawn². The Trust continues to have constructive dialogue with its lenders on the extension of its bilateral facilities. The discussions are progressing well and preliminary

¹ Gearing as measured on a Total Debt to Total Assets basis, as at 31 December 2008

² As at 1 May 2009

feedback from lenders indicates a willingness to extend, albeit subject to significant price increases.

Reducing the Trust's gearing towards the lower end of the target range of 20 to 40 per cent of total assets provides BWP with an even stronger balance sheet and better positions the Trust to manage debt funding in the face of the continuing uncertainty in credit and property markets.

Consistent with this conservative capital management strategy, the Entitlement Offer will provide a number of benefits to BWP, including:

- a reduction in pro-forma gearing³ from 35.5 per cent to 23.8 per cent;
- an increase in the Trust's available debt capacity to approximately \$150 million⁴ on a pro-forma basis; and
- forecast interest cover ratio of 3.37x for the 2010 financial year.

Ultimately, these initiatives are aimed at improving BWP's ability to meet its objectives to provide its unitholders with a secure, growing income stream and capital growth.

Wesfarmers commitment to the Entitlement Offer

Wesfarmers Limited (**Wesfarmers**), through a wholly-owned subsidiary, is the Trust's largest unitholder, with 22.7 per cent⁵ of the issued units in BWP, and wholly-owns BPML, the responsible entity of the Trust. In addition, Bunnings Group Limited, a wholly owned subsidiary of Wesfarmers, is the major tenant of BWP.

Wesfarmers has indicated its intention to take up all of its entitlement under the Entitlement Offer, amounting to approximately \$27.2 million.

Distribution guidance

New units issued under the Entitlement Offer will rank equally with existing units and will be entitled to the 30 June 2009 half-year distribution. Allowing for the additional units and the one-off impact of writing off excess interest rate derivatives as a result of the reduced amount of debt held by BWP, the estimated distribution for the half-year to 30 June 2009 is 5.17 cents per unit. This brings the estimated total distribution for the 2009 financial year to 11.87 cents per unit.

³ Gearing as measured on a Total Debt to Total Assets basis, as at 31 December 2008

⁴ Assumes that existing facilities are rolled-over without significant structural changes, including limits. Debt capacity may be reduced if it is considered to provide cost, tenor or other funding benefits. Capacity will also reduce to meet committed capital expenditure of less than \$10 million in the half-year to 30 June 2009 and 2010 financial year.

⁵ As at 6 May 2009

Distributions for the 2010 financial year are forecast to be 12.0 cents per unit. This forecast reflects management's expectations of 100 per cent portfolio occupancy, a conservative estimate of income growth from structured and market rent reviews (approximately 2.6 per cent like-for-like rental income growth), and an average interest rate of 9.4 per cent (inclusive of fees and margins⁶) which is, on average, 99 per cent hedged over the financial year.

Directors with unitholdings in BWP have confirmed their intentions to take up their full entitlements under the Offer.

J.P. Morgan Australia Limited is acting as sole financial advisor, lead manager and underwriter in respect of the Entitlement Offer.

 - Entitlements must be exercised by 10 June 2009
 - The nominee will distribute any proceeds of sale (net of expenses) proportionately to the Ineligible Unitholders
- The final number of Ineligible Unitholders and the number of Entitlements to be offered for sale by the nominee will be determined on the basis of BWP's register on the Record Date of the Offer (5.00 pm (WAST) on Tuesday, 12 May 2009)

Important holding information (cont'd)

Stock lending and other transactions

- Eligible Unitholders will be entitled to apply under the entitlement offer for a certain number of new units held as at 5:00pm (WAST) on 12 May 2009 (Record Date). Notwithstanding the Record Date for the entitlement offer, BWP will be granted a waiver by ASX so that, in determining entitlements for the entitlement offer, BWP may ignore changes in unitholdings that occur after the announcement of the trading halt in units for the entitlement offer (other than registrations of transactions that were effected through ITS before that announcement)
- Accordingly, a person who is a registered unitholder of BWP at 5.00pm (WAST) on the Record Date for the entitlement offer as a result of a dealing after the announcement of the trading halt in units for the entitlement offer (other than the registration of a transaction effected through ITS before that announcement) may not be entitled to receive an entitlement under the entitlement offer
- In the event that a unitholder has existing units out on loan at the Record Date, the borrower will be regarded as the unitholder for the purposes of determining the entitlement (provided that those borrowed units have not been on-sold)

Key investment risks

This section discusses some of the key risks associated with an investment in BWP. Additional risks that BWP is not aware of, or that it currently considers to be immaterial, could also have a potential negative impact on BWP in the future. If any of the risks or a combination of them occur, the value of your investment in BWP or your income from that investment may decline or be lower than expected. Before investing in BWP, you should consider whether this investment is suitable for you. Potential investors should consider publicly available information on BWP (such as that available on the websites of BWP and the ASX), carefully consider their personal circumstances and consult their stockbroker, solicitor, accountant or other professional adviser before making an investment decision.

Funding

- The real estate investment industry tends to be highly capital intensive. The ability of BWP to raise funds on favourable terms for future refinancing and acquisitions depends on a number of factors including general economic, political, and capital and credit market conditions. The inability of BWP to raise funds on favourable terms for future acquisitions and refinancing could adversely affect its ability to acquire new properties or refinance its debt.

Market price

- The market price of BWP units will fluctuate due to various factors including general movements in interest rates, the Australian and international general investment markets, and economic conditions, global geo-political events and hostilities, investor perceptions and other factors that may affect the Trust's financial performance and position. The market price of BWP units could trade on the ASX at a price below their issue price.

Interest rates

- Adverse fluctuations in interest rates, to the extent that they are not hedged or forecast, may impact BWP's earnings before interest and asset values due to any impact on property markets in which the Trust operates.

Leverage

- The use of leverage may enhance returns and increase the number of assets that can be acquired, but it may also substantially increase the risk of loss. Use of leverage may adversely affect the Trust if economic impacts such as rising interest rates, severe economic downturns or deterioration in the condition of the market occur. In the event an investment is unable to generate sufficient cash flow to meet the principal and interest payments on its indebtedness, the value of the Trust's equity component could be significantly reduced or even eliminated.

Debt covenants

- BWP has various covenants in relation to its banking facilities, including interest cover, leverage ratio and weighted average lease expiry requirements. Factors such as falls in asset values or the inability of BWP to extend current leases or acquire long term leased properties could lead to a breach in debt covenants. In such an event, BWP's lenders may require their loans to be repaid immediately, and may affect BWP's ability to renew or extend existing borrowing facilities.

Taxation implications

- You should be aware that future changes in Australian taxation law including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect taxation treatment of an investment in BWP units, or the holding and disposal of those units.

Realisation of assets

- Property assets are by their nature illiquid investments. This may make it difficult to alter the balance of income sources for BWP in the short term in response to changes in economic or other conditions.

Employees

- All employees of the Trust are employed by Wesfarmers Limited, the owner of BWP's responsible entity Bunnings Property Management Limited. The Trust is reliant on retaining and attracting quality senior executives and other employees. The loss of the services of any of BWP's senior management or key personnel, or the inability to attract new qualified personnel, could adversely affect the Trust's operations.

Key investment risks (cont'd)

Customers

- Insolvency or financial distress of BWP's tenants may reduce the income received from its assets.

Counterparty/credit risk

- Third parties, such as tenants, developers and other counterparties to contracts may not be willing or able to perform their obligations to the Trust.
- Over 90% of BWP's rental income is generated from its leases to a wholly owned subsidiary of Wesfarmers Limited, Bunnings Group Limited. The stability of the income and value of the assets are dependent on Bunnings Group Limited delivering on its contractual obligations.

Insurance

- The Trust purchases insurance, customarily carried by property owners, managers, developers and construction entities, that provides a degree of protection for its assets, liabilities and people. There are however certain risks that are uninsurable (e.g. nuclear, chemical or biological incidents) or risks where the insurance coverage is reduced (e.g. cyclone or earthquakes). Further, insurance markets may be detrimentally affected by the current global downturn such that insurance becomes more expensive or the financial ability of insurance companies to respond to claims is diminished.

Property market risks

- BWP will be subject to the prevailing property market conditions in sectors in which it operates. Adverse changes in market sentiment or market conditions may impact BWP's ability to acquire, manage or develop assets, as well as the value of BWP's properties. These impacts could lead to a reduction in earnings or the carrying value of assets.

Change in value and income of properties

- Returns from investment in properties largely depend on the rental income generated from the property and the expenses incurred in its operation, including the management and maintenance of the property as well as the changes in the market value of the property. Rental income and/or the market value of properties may be adversely affected by a number of factors, including:
 - a) the overall conditions in the national and local economy;
 - b) local real estate conditions;
 - c) the perception of prospective customers regarding attractiveness and convenience of properties and the intensity of competition with other participants in the real estate industry;
 - d) the convenience and quality of properties;
 - e) unforeseen capital expenditure;
 - f) supply of developable land, new properties and other investment properties; and
 - g) investor demand/liquidity in investments.

Acquisitions

- BWP's future strategy may involve the acquisition of properties to add to its property portfolio. Whilst it is BWP's policy to conduct a thorough due diligence process in relation to any such acquisition, risks remain that are inherent in such acquisitions.

Regulatory issues and changes in law

- BWP is subject to the usual business risk that there may be changes in laws that reduce income or increase costs.

Change in capitalisation rates

- The capitalisation rates considered appropriate by independent valuers may change in response to market conditions.

Key investment risks (cont'd)

Litigation and disputes

- Legal and other disputes (including industrial disputes) may arise from time to time in the ordinary course of operations. Any such dispute may impact on earnings or affect the value of BWP's assets.

Competition

- Competition may lead to an oversupply through overdevelopment or to prices for existing properties or services being inflated via competing bids by prospective purchasers.

Fixed nature of significant costs

- Significant expenditures associated with each investment, such as funding costs, maintenance costs, employee costs and taxes are generally not reduced when circumstances cause a reduction in income from investment. The value of an asset owned by the Trust may be adversely affected if the income from the asset declines and other related expenses remain unchanged.

Occupational Health & Safety (OH&S)

- If BWP fails to comply with necessary OH&S legislative requirements across the jurisdictions in which the Trust operates, it could result in fines, penalties and compensation for damages as well as reputational damage to the Trust.

Forward looking statements

- There can be no guarantee that the assumptions and contingencies on which the forward looking statements, opinions and estimates (including projections, guidance on future earnings and estimates) are based will ultimately prove to be valid or accurate. The forward looking statements, opinions and estimates depend on various factors, many of which are outside the control of the Trust.

Environment

- BWP's properties are subject to various environmental laws and regulations, including liability for remediation of contamination. There are no known sites for which the RE is responsible that require remediation under the current use. However, there can be no guarantee that all contamination has been identified or that changes in legislation will not affect permitted use or the requirement for remediation in the future.

Each of Bunnings Property Management Limited ("BPML") and J.P. Morgan Australia Limited ("Underwriter") have:

- (a) complied and will comply with all applicable provisions of Financial Services and Markets Act 2000 of the United Kingdom (the "FSMA") with respect to anything done by it in relation to the New Units in, from or otherwise involving the United Kingdom; and

European Economic Area (which includes Germany)

This Presentation has been prepared on the basis that all offers of New Units will be made pursuant to an exemption under the Prospectus Directive, as implemented in Member States of the European Economic Area ("EEA"), from the requirement to produce a prospectus for offers of securities. Accordingly any person making or intending to make any offer within the EEA of New Units which are subject to the placement contemplated in this Presentation should only do so in circumstances in which no obligation arises for BPML or the Underwriter to produce a prospectus for such offer. Neither BPML nor the Underwriter have authorised, nor do they authorise the making of any offer of New Units through any financial intermediary, other than offers made by the Underwriter which constitute the final placement of New Units contemplated in this Presentation.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive 2003/71/EC (each, a "Relevant Member State") an offer to the public of any New Units may not be made in that Relevant Member State except that an offer of any New Units may be made to the public in that Relevant Member State at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

- (a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts

(c) to fewer than 100 natural or legal persons (other than defined as qualified investors in the Prospective Directive) subject to obtaining the prior consent of BPML and the Underwriter for any such offer; or

(d) in any other circumstances falling within Article 3(2) of the Prospective Directive,

provided that no such offer of New Units shall result in a requirement for the publication by BPML of a prospectus pursuant to Article 3 of the Prospective Directive.

For the purposes of this provision, the expression an "offer to the public" in relation to any New Units in any Relevant Member State means the communication in any form and by any means of sufficient Presentation on the terms of the offer and any New Units to be offered so as to enable an investor to decide to purchase any New Units, as the same may be varied in that Relevant Member State by any measure implementing the Prospective Directive in that Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each subscriber for or purchaser of New Units in the offering located within a Relevant Member State will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of the local law of the Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive or, if such implementation has not taken place, within the meaning of Article 2(1)(e) of the Prospectus Directive respectively ("Qualified Investor"). In the case of any New Units being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, such financial intermediary will also be deemed to have represented, warranted to and agreed with the Underwriter and BPML that: (i) the New Units acquired by it have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than Qualified Investors, as that term is defined by the local law of the Relevant Member State or as defined in the Prospectus Directive respectively, or in circumstances in which the prior consent of the Underwriter has been obtained to each such proposed offer or resale; or (ii) where New Units have been acquired by it or on behalf of persons in any Relevant Member State other than Qualified Investors, the offer of those New Units to it is not treated under the Prospectus Directive or under the local law of the Relevant Member State as a public offer which requires the prior publication of a prospectus or a respective offering document. BPML and the Underwriter, each of their respective affiliates and others will rely upon the truth and accuracy of the foregoing representation, warranty and agreement.
