
COMMITMENT TO HEALTH, SAFETY AND ENVIRONMENT

BWP Trust is a real estate investment trust investing in and managing commercial properties throughout Australia.

BWP Trust is committed to the health and safety of our employees, contractors and visitors, to acting ethically and operating its business in a sustainable manner with respect to the environment. To achieve this we will:

- > Pursue the goal of no harm to employees, contractors, tenants and visitors.
- > Comply with all applicable Laws, Regulations and Standards wherever we operate.
- > Embed health, safety and environmental considerations in our business planning and decision making processes.
- > Integrate health, safety and environmental requirements when designing, purchasing, constructing and modifying equipment and facilities.
- > Set, measure and review objectives and targets that will drive continuous improve health, safety and environmental performance.
- > Maintain a culture where everyone is aware of their health, safety and environmental obligations and feels empowered to speak up and intervene on health, safety and environmental issues.
- > Implement a systematic approach to identifying and managing risk.
- > Continue to build on our knowledge and understanding of sustainability and ways of addressing sustainability issues in order that we can assess opportunities for improved sustainability performance.
- > Require employees, contractors and tenants to comply with our health safety and environment expectations.
- > Publically report on health safety and environment performance.

Responsibility for achieving this commitment rests with all employees and contractors engaged in activities under our operational control.

This commitment will be reviewed regularly and updated as required.
